Anime By Melanie

The Anime Club recently watched the anime called Soul Eater. "It was da bomb!!! Best anime ever the president is a genius!" was one student's comment on it. The club enjoyed watching the anime together. It was funny, exciting, and interesting. As an anime watcher I definitely recommended viewing it.

Abandon by Meg Cabot

***** 5 of 5 stars

This book features a strong female lead in Pierce Oliviera. Pierce is humorous and relatable because she has multiple imperfections. She makes mistakes and I think this is what completes the book.

Pierce's parents are recently divorced due to her having a near death experience. Since her parents' divorce, Pierce and her mother have moved Isla Huesos, Florida. Pierce is looking forward to a new start in Isla Huesos also known as the Island of Bones. John is a complication to that new start. John is who Pierce met when she died, the guy who she can't seem to forget no matter how hard she tries or where she runs.

John is more than a complication, he is in charge of the Underworld in Isla Huesos. John is what is called a death deity. How in the world can a death deity and the new girl on the island work out a relationship?

Welcome to the Future

Many students and staff have visited the 3D printer in room 233 and were introduced to the many applications for its use. 3D printers will be "ubiquitous" says Ms. White. They are already being used in Makers' clubs, medical 3D printers are making artificial limbs and body parts, and culinary students are using 3D printers for culinary works of art. Connect 3D printers to robotic machines and it can "print" houses, cars, and planes! Connect Artificial Intelligence with 3D printers and you will get the Daedalus Pavilion. Do an Internet search of it and it will amaze you!
