

GOT NEWS?

Please share with us! The Communications and Grants Research Division wants to tell your stories so people near and far can hear about the great work and special accomplishments that happen every day at Dutchess BOCES.

What’s new? Any hands-on student projects going on? Has new technology changed learning? Has a student overcome obstacles to find personal success? What events are coming up? Is there a community service project underway? We want to know!

Please complete this form – including as much information as needed. If we need to follow up, a staff member from our division will contact you. We love pictures too! Please send clear photos of at least 300 dpi so we can highlight them on our website, on Facebook, and in news releases to local media.

Questions? Contact Genevieve Kellam, director of Communication and Grants Research, at genevieve.kellam@dcbooces.org or call 486-486-8051.

Your News: Describe your story with specific details
